DETAILED ACTION

Reasons for Allowance

Claims 1-26 allowed.

The following is an examiner's statement of reasons for allowance: Claims 1 and 14 are allowable over prior art because there is no prior art of record that teaches a liquid crystal display with a color filter on the substrate, covering edge portions of the gate line and gate electrode and an overcoat layer formed on the color filter layer and a gate insulation film formed over the overcoat layer.

Choi et. al US Patent 6,191,835 teaches a color filter formed on the lower substrate covering edge portions of the gate line and gate electrode however, Choi does not teach the gate insulation film and overcoat layer disposed on top.

Kim et. al. US Patent 6,407,782 and **Nakata et. al US Patent 6,429,916** both teach a color filter formed on a lower substrate with an insulation layer formed on top however the color filter is formed on the gate insulation layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
